

Biological Process - participates - Gene

Anatomy - downregulates - Gene

Anatomy - expresses - Gene

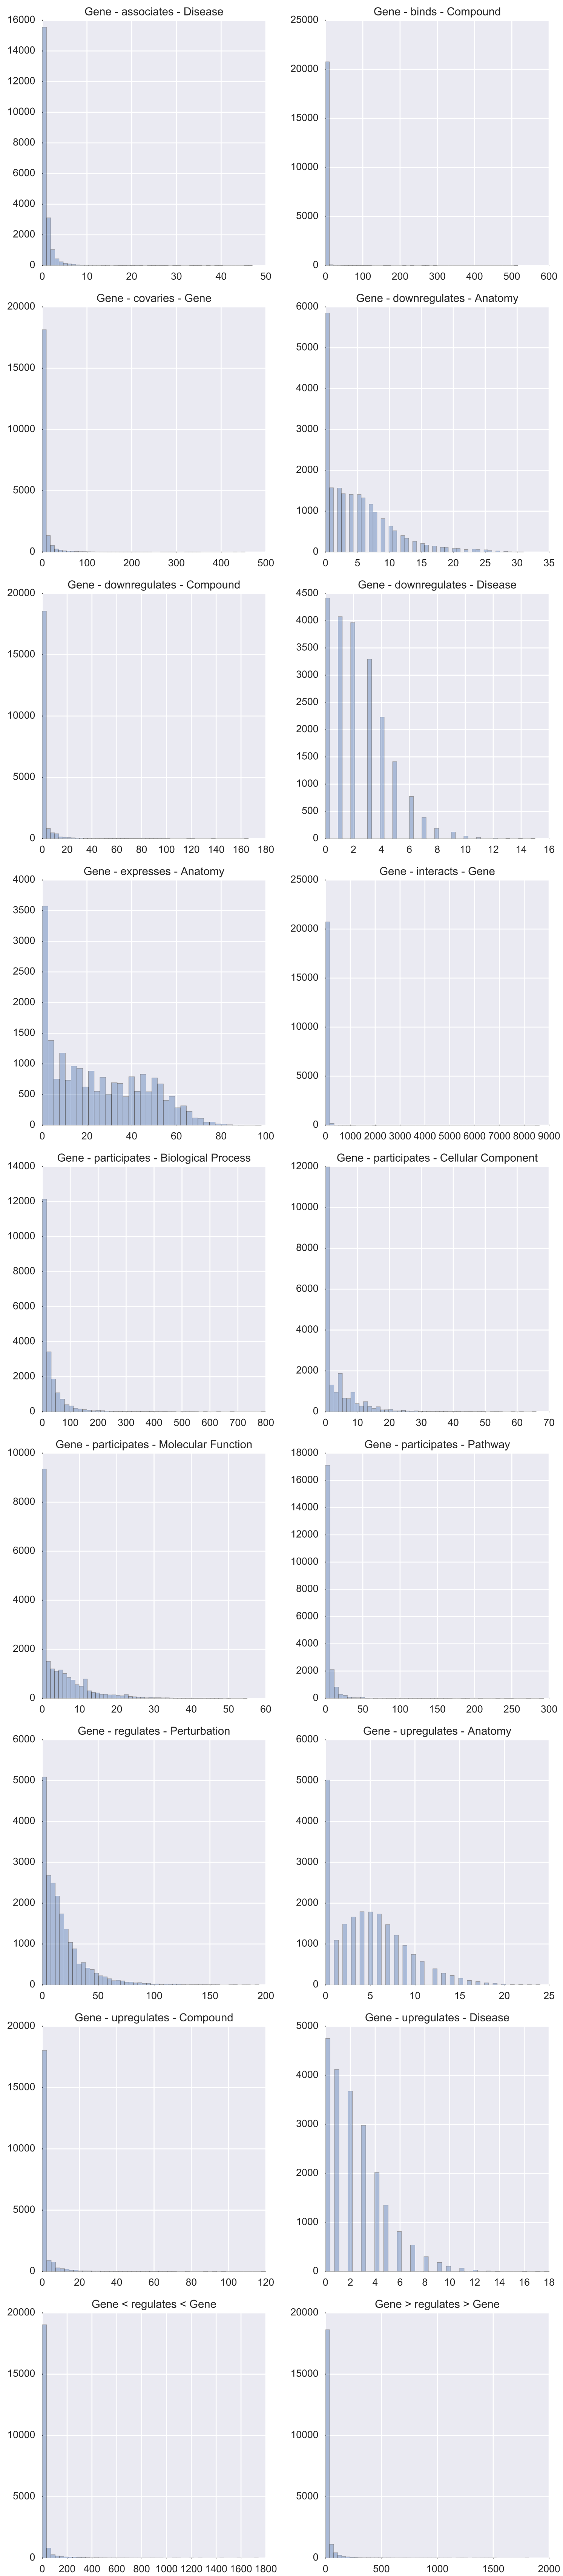

Anatomy - localizes - Disease

Anatomy - upregulates - Gene

Disease - associates - Gene

Disease - downregulates - Gene

Disease - localizes - Anatomy

Disease - palliates - Compound

Disease - presents - Symptom

Disease - resembles - Disease

Disease - treats - Compound

Disease - upregulates - Gene

Perturbation - regulates - Gene

Side Effect - causes - Compound

Molecular Function - participates - Gene

Pathway - participates - Gene

Cellular Component - participates - Gene

Symptom - presents - Disease
